

HAUS[®] OF BARS

by SpeedX

INTRODUCING

THE INSTANT GLASS CHILLER

HIMA GLASS

MRP: INR 19,500/-

Co2 cylinder additional at **INR 3499/-**

Introducing the "Hima Glass" by Speedx!

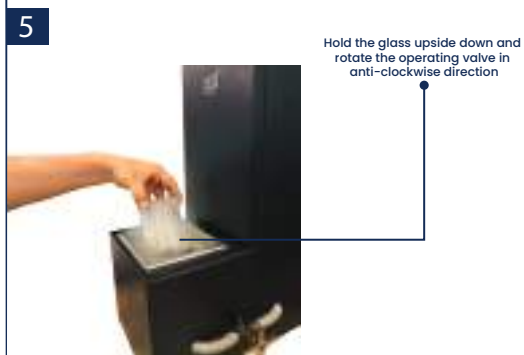

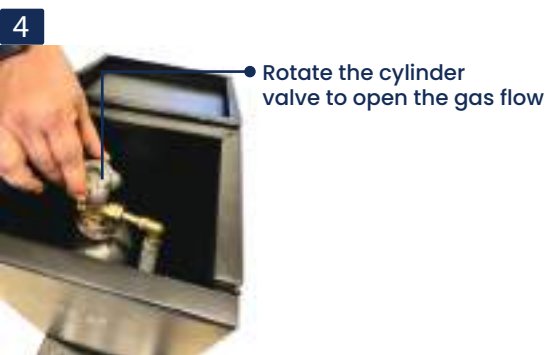

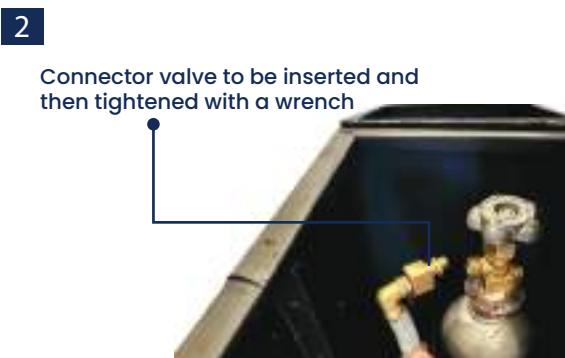

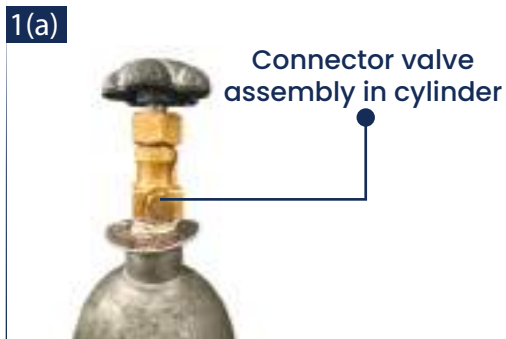

This innovative instant glass chiller not only frosts your glass immediately but also ensures it's sanitized before you pour great drinks for your guests. Compact and designed to fit into any bar, big or small, the countertop model requires no plug-ins as everything is built-in. And no- we don't use Nitrogen/ dry ice! So it's 100 percent food safe.

DIMENSIONS AND INFOGRAPHIC

OPERATING MECHANISM

DO'S & DON'TS

- ✘ Do not keep the unit diagonally or at an angle. Keep it upright.
- ✘ Avoid Contact with skin, Do not let the CO2 gas come into direct contact with your skin at the time of use as it can cause frostbite it is recommended to wear gloves while operating the Hima Glass Instant Chiller.
- ✘ The unit must be cleaned regularly with soft cotton cloth, including the spout.
- ✘ Do not put dirty glasses containing liquid residue on the spout. Do not modify or make any changes to the unit.
- ✘ In case of the need for repair, do not attempt such repairs yourself, only have our authorized team to have a look at it.
- ✘ Avoid Direct Inhalation, Do not Inhale CO2 Directly.
- ✘ Store Properly, Keep CO2 Cylinder in a cool, Dry Place away from direct sunlight and heat sources.
- ✘ Ensure that the Cylinder valve is fully closed when not in use. Be aware that CO2 expands rapidly when warmed, so avoid sudden temperature changes.
- ✘ Never attempt to heat a CO2 cylinder to increase pressure. Avoid Rough handling or dropping the cylinders.
- ✘ Avoid over frosting the glass to prevent the risk of becoming brittle and cracking.
- ✘ Ensure the CO2 cylinder valve is shut from top, when not in use.
